18<sup>th</sup> July 2008.

To Whom It May Concern,

Having been asked by ACS to provide a letter of reference I can do so because of the fact I have been familiar with them in the construction of two houses at our College Road Project. They first attended site back in September 2007.

Firstly ACS's management are a joy to work with, on this particular contract there has been stage pricing and stage attendance both of which ACS managed faultlessly. Their eager and willingness is reassuring in itself and they are not afraid to take on aspects of work that you don't normally associate with general cleaning. Their operatives, on this particular contract, were a mixture of English and European trades people, who arrived on site on time and were pleasant and courteous and always got on with the job in hand. With reference to 'trades people' I am lead to believe by other Pierse Managers that ACS's operatives are trained in additional disciplines other than cleaning which makes them a very versatile and diverse company; however I did not encounter this at College Road because their remit was cleaning.

ACS is an excellent company willing to take on all aspects of cleaning and more. I can highly recommend them.

If you have any questions or queries please do not hesitate to call any of the numbers above or my email.

Sincerely,

Paul Cotter.  
Site Manager.
